DETAILED ACTION

Election/Restrictions

I. Examiner will treat applicant's assertion that claims 1-3 were canceled when the application was filed as an election without traverse of claims 4 and 5 in the reply filed on 4 June 2004

Claim Rejections - 35 USC § 102

II. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

A. Claims 4 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Takizawa et al., US No. 5,512,234 ("Takizawa").

i. Takizawa discloses a continuous extrusion molding system (FIG. 1) comprising a prickly gear (2), rotatable while pressed in contact and disposed adjacent to a mouthpiece of an extruder (1).

ii. Examiner Note: The fact that the extrusion molding system of the present invention is intended to be used in manufacturing a weather strip is given little patentable weight b/c the structure of the extrusion molding system of the above cited reference is capable of meeting the functional limitations.
